The Expert Accountant's Report Government Can Raise \$50,000,- The Many Uncomplaining But 000 Without Delay.

Enormous Debt Piled Up by Alleged May All Be Taken by a Syndicate They Go Without Rest to Make Sure

It Is Stated that Blds Will Be Called for on Wednesday.

topic in Walt street this morning, and

Atchison, Topeka and Santa Fe Railroad system, which has been anxiously awaited by Wall street, was made public at noon to-day, and it bears out the preliminary reports which have appeared from time to time.

In his latest report Mr. Little states that an enormous debt has been pilled.

Railroad is \$58,306, of the Colorado Midland \$183,358, and of the St. Louis and San Francisco \$487,752. The gross unfunded debt of the entire Atchison system is \$15,166,581; the gross offsets, \$4,565,179, and the total net unfunded debt is \$10,410,302.

Mr. Little says that the indebtedness on April 39, 1894, of the Atlantic & Pacific was \$5,883,33 to Atchison and \$6,894, of the Atlantic & Pacific was \$5,883,33 to Atchison and \$6,894, of the Colorado Midland was \$1,585,398.

"These claims, aggregating \$15,08,299, says Mr. Little, "are apparently worthless, and should, in my judgment, be written to the debit of profit and loss."

For the year ending June 39, 1894, the net earnings of the system, not including the Atlantic & Pacific, the Colorado Midland and St. Louis & San Francisco in Midland and St. Louis & San Francisco in the Atlantic & Pacific, the Colorado Midland was \$1,585, 398, were \$5,566,614. This result is after deductions for taxes and rentals, depreciation in equipment and the over-state ments of revenue referred to in the Little report of Aug. 6.

Deducting also \$250,098 Sonora Railway subsidy, now at an end, the her is reduced to \$5,666,614. Deducting interest on prior liens there remains \$4,816,264 applicable to interest on \$128,56,684 applicable to

Weary Toilers.

In his latest report Mr. Little states that an enormous debt has been piled up by the past management of the system, and he points out where alleged mismanagement is the cause of this.

Mr. Little shows the net floating debt of the Atchison consolidated system, not including the indebtedness of one company to another in the system for the overdue and accrued interest on the funded debt, to be \$5,149,585. The net floating debt of the Atlantic and Pacific Railroad is \$389,595; of the Colorado Midland \$183,385, and of the St. Louis and land \$183,385, and of the St. Louis and San Francisco \$487,732. The gross unsample of the subscribers in the British Bank of North America.

There was also a rumor on the street that the Washing stimply toll right on without so much as a two weeks resulte a year, is surprisingly layer.

Grateful wives and children should see there would take the entire seems if they could, but the Government prefers to offer the bonds at public subscribers to the last loss. Stewart declined to say, but it is unstanced to say, but it is un

FRENCH VANITY. The Concelted Gaul Believes Every thing Began in France. The Frenchmen's belief in their superi ority to the rest of the world in every

branch of human activity almost the layery of harlons, but eventuars in tiself, would suffer eclipse. Ever art and every science is supposed to take its foundation in France, says Macmillan's Magazine.

Countees Frenchmen, and M. Thiers among the number, have believed that the discovery of the law of gravitation is not due to Newton, but to Pascal, and a French autror of a treatise on the history of the hard theory begins it by declaring that chemistry is a French science, and was founded by Lavoisler, of immortal nemory. Even M. Casimir-Perier, in his message to the Chambers, could not abstain from declaring that France was the centre of intellectual light. It would be a harmless trait of character if it was confined to the pursuits of peace, and did not extend to an insatiable thirst for minary slory.
